

KHALFAN ALQUBAISI

Member Advisory Board, UAE

Experience : 6 years

Email : dubai@netrika.com

With decades' long extensive corporate career in the United Arab Emirates, Khalfan Alqubaisi has stacked up of more than 40 years of professional experience through spearheading projects that contributed to the growth of places like Dubai, Abu Dhabi and other cities of UAE.

Having attained a master's degree from the London School of Economics & Political Science in 1979, he went to acquire special skills in core areas like New Business Development, Strategic Planning, Product Development, Project Management, Negotiation, Manufacturing, and Marketing Strategy, among others.

From 2000 onwards, he has been heading the reputable Al Hamad Industries International as Chief Economic Officer (CEO). It is one of UAE's leading electrical and electronics manufacturing companies which produces Low Voltage Switch Gears, Feeder Pillars, and Service Cabinets and package substations for the Military. He is currently responsible for the implementation of the major projects such as the Dubai Metro, Jabel Ali Bus Station, and Khawajeen Bus Station, among several others.

He has been brought onboard Netrika's Advisory Board as Member, owing to his phenomenal expertise in handling multiple industries and his corporate leadership roles handling hundreds of employees and prestigious projects with the Al Hamad Group.
